KIRKHAM

This range offers a wide variety of frame and glass colour combinations. Of the three frame colours; satin black, polished nickel and brass, there are an equal number of glass to choose from; clear, smoked or amber. One of the most unique selling points of this collection is the dual application of how the mixture of long and short glass are fitted to the lights, giving two visual options. Every frame from the pendants to floor lamps can situate the glass either all vertically for a clean cylindrical outline or at a diagonal angle creating a more uneven decorative effect.

Range Characteristics:

- 9 Colour Options
- 2 In 1 Glass Design
- Substantial Materials
