BOTON

The vintage effect of the Tiffany glass is interpreted to reflect Aztecan artistic creations with the shapes and positioning of the glass pieces being furthered by the shape of the shade itself. Giving this range a subtle modern edge the shades are embedded with clear crystal pieces in keeping with the monochrome palette of coloured glass.

GLACOED

A classically traditional Tiffany shade collection, this range pairs primary colours with a more neutral cream to create a balanced combination of beautiful Tiffany glass. The familiar dragonfly pattern is slightly modernised with the clear, high quality crystal pieces in place of the more expected glass drops adding a touch of sparkle for a new age setting.

GIDDING

This small table lamp, holds a traditional bubble umbrella style Tiffany shade. The vivid blue colour around the bottom of the shade creates contrast with the remaining white finish of the dome shape. Whilst standard Tiffany shades can often feature embedded glass pieces, this offers a more modern and eye-catching option with clear crystal squares in place of glass.

HUMBER

In contrast with the commonly soft curved or triangular forms of glass tiled to form Tiffany, this lamp provides a more angled Aztec effect by using square and rectangular shapes within its shade. The neutral colour finishes are enhanced by the clear square crystal components found along the widest section of the glass adding a bit of glamour.

DARWEN

The rim of this Tiffany shade is coated in the same textured black finish as the table lamp itself, ensuring the shade design flows seamlessly into the base effect. The black outlines of the alternating white and grey glass forms an intriguing pattern around the prism shade. Clear crystal along the edges has been used in place of the usual glass beads.

DUDDON

This table lamp is in keeping with antique Tiffany designs using neutral traditional cream and amber coloured glass. The base of the shade displays appealing patterns with amber glass offset against the cream background. Within the centre of the amber triquetra form there are clear crystal pieces to refract the light and add a touch of sparkle to this generally classic lamp.
